# Center Street makeover takes next step

Continued from Page 1  
to move it. If not, then it'll have to be removed."

This project is funded by and under the supervision of the New York State Department of Transportation. NYSDOT is using Alden-based Concrete Applied Technologies Corp. The Tribune/Sentinel reached out to CATCO for further details, but no response was received as of press time.

Welch explained, "They'll do one side of the street, and mill it, and then mill the other side of the street, and then they will pave it. There will never be a complete shutdown of that street."

To this point, crosswalk bricks have been removed, and underground electrical infrastructure has been adjusted in anticipation

Laborers continued removing crosswalk bricks on Center Street this week. The roadway renovation project will take its next step Monday, when milling is scheduled to begin.

of new traffic light holders. Additional steps to be taken include replacing curbs and installing new street and speed limit signs. In ad-

dition, the large "Welcome to Historic Lewiston" marker – and the DOT directional on its backside – will be removed.

Welch said she requested street construction be finished by June 1, so as to not interfere with summertime events or festivals.

### May 'Big Pick-Up Week' for Village of Lewiston

The Village of Lewiston announced Monday, May 2, through Friday, May 6, will be "Big Pick-Up Week." Residents can dispose of:

√ Appliances (refrigerators and air conditioners must have the Freon removed)

√ Metals (pipes, scrap, etc. – not to exceed 6 feet in length)

√ Brush (branches and trees – not to exceed 6 feet in length; place brush parallel with road edge)

Residents are asked to separate brush, garbage and metal items. If a contractor does the work/service, the contractor is responsible for the removal of the waste.

Electronics (televisions, computers, monitors, etc.) will not be collected.
