News and Notes

•Construction has begun on the inclusive playground in Marilyn Toohey Park. Fox Fence donated the safety encasement.

•Conde asked Marino to map out Ridge Street to see what traffic and parking options make the most sense. Business owners have asked trustees to consider changing the roadway back to two-way traffic.

•Last week, the DPW successfully moved the Academy Park gazebo to a new location, closer to the recently relocated bandshell. Welch said that was at the request of Kiwanian Jeff Jordan. The Kiwanis Club uses the structure during the Niagara County Peach Festival.

Welch said the former bandshell site was leveled and seeded – and hopefully will grow grass ahead of the September event.

•A private fireworks ceremony will take place Saturday night in conjunction with an event at the Niagara Falls Country Club.

•Onondaga Street was temporarily closed Tuesday as Lewiston Fire Department No. 1 had its hoses inspected.

•Marino announced the Vil-

lage of Lewiston, its DPW, and Nussbaumer & Clarke took home an ACEC New York Engineering Excellence Awards Platinum accolade for the reconstruction of Lewiston Landing. The pier was recreated and bolstered following high-water events in 2017 and 2019.

Lt. Gov. Kathy Hochul, who spoke at the September 2020 groundbreaking, called it a “magnificent waterfront; and what a gem of a community this is.”

Balance Leads to Health

The body has to have whole foods and whole food nutrients to maintain healthy balance and functional health. Without all the required elements available and able to be utilized, body chemistry imbalance results and disease begins to set in.

Balanced body chemistry means all the bodily functions are also balanced. Healing will be rapid. Sleep will be restful and deep. Digestion will be proper and bowel elimination complete. Equilibrium, hearing and vision will all function properly. Balanced body chemistry also helps hormonal function, keeping you feeling young. When healthy, your appetite will be moderate and how much you eat will be based on your needs.

You know that you have an imbalance in the body when you have a symptom. That's nature's way of communicating something is wrong. Medications can alter bodily functions and mask symptoms, but they do not build up reserves of whole nutrients necessary to maintain the body's health.

In chiropractic and Nutrition Response TestingSM, the doctor analyzes to find the CAUSES for the imbalance, whether it is a misalignment of the spine interfering in nervous system control of function or an environmental stressor or toxins requiring nutritional support to assist the body to cleanse and heal. Knowing the right causes leads to correct solutions, where the body's natural balance returns and health is restored.
