

This is a modern but pre-Orange Cat photo of the "Bicentennial Home of the Week."

### Bicentennial (cont.)

Continued from Page 10

names, to preserve the house. This drive would save the building and result in a revived interest in historical Lewiston associations. Furthermore, it would push the local government to emphasize the preservation of historic homes in Lewiston. The house they saved was functional in architecture, but unique moldings around doorways and windows made by journeymen English carpenters creates a unique charm to the building. While the building may be a blip in history, it shows the importance of historic homes to the town and its citizens.

#### Bicentennial Weekend

Time is getting short. The committee is feverishly working out details for the four-day event, July 1-4. We are excited

about the focus on our mutual history and sincerely hope you will join us for the entire weekend. You can help by reaching out to your personal cadre of former Lewiston residents and making sure they come home for the celebration – which will include a wide variety of music; dedication of the newly expanded and moved Alphonso DiMino Bandshell; a parade; the Potter's Field Monument dedication; veteran recognitions; food, fun and frolic for the entire four days. The party will end with a Fourth of July fireworks presentation you will talk about for years. See [www.Lewiston200.org](http://www.Lewiston200.org).

## The Silo raising the roof on new season

BY JOSHUA MALONI

GM/Managing Editor

The Silo Restaurant in Lewiston opened for the 2022 season on Sunday.

General Manager Lexi Alfieri said, "We have an awesome staff that we're really excited and grateful to have. We're all looking forward to a successful Silo summer!"

Owner Alan Hastings added, "Like Lexi said, we have an amazing crew that I'm super thankful to have. We put a brand-new roof on this spring. I'm really looking forward to this summer. We can't wait to get started."

Alfieri noted, "We did a ton of upgrades last season – like the new digital menu, the new metal wall, new POS system, new equipment and tables. It may look a little different in here, but we are still committed to being the best."

"We put new heaters all around the deck, so we can comfortably accommodate during colder spring days."

Of course, The Silo is world-famous for its "Haystack" sandwich. The shaved ribeye-meets-crispy potato straws on a soft bun was prominently featured on "Man V. Food," and in numerous media outlets – this one included.

An authentic train caboose at the foot of the patio serves an assortment of Perry's Ice Cream flavors, as well as unique sweet treats.

The Silo Restaurant, at 115 N.

Water St., is open from 11 a.m. to 9 p.m. daily. For more information, call 716-754-9680 or visit <https://www.lewistonsilo.com> and <https://www.facebook.com/silorestaurant/>.
